

EU PVSEC 2020 *online*

37th European Photovoltaic Solar Energy Conference and Exhibition

07 - 11 September 2020

The **European PV Solar Energy Conference and Exhibition (EU PVSEC)** is the largest international Conference for Photovoltaic research, technologies and applications, and at the same time a top international PV Industry Exhibitions. It gathers the global PV community to conduct business, to network and to present and discuss the latest developments and innovations in Photovoltaics. It is the world-renowned science-to-science, business-to-business and science-to-industry platform **with a full and only focus on the global PV Solar sector.**

Due to the exceptional circumstances regarding the pandemic in 2020, the EU PVSEC will be held **exclusively online** for the first time ever. We are dedicated to ensure that this year's digital experience reflects the identity of the EU PVSEC: to meet and discuss new concepts and share inspiration.

We set ourselves high standards to maintain the characteristics of an on-site event while providing the same content with more digital features.

"The EU PVSEC is the ideal platform to refresh and develop networks, to learn about the latest developments in photovoltaic technology and to contribute to the debate on how we can use the technology to protect and enhance our energy supply."

EU PVSEC 2020 General Chair
Prof. Nicola Pearsall

Emerita Professor of Renewable Energy in the Faculty of Engineering and Environment of Northumbria University, United Kingdom

Over **900** live presentations connecting participants from over **60** countries

Over **1000** Abstracts received

Committee of over **240** renowned scientists
